RE: American Made Products

To Whom It May Concern:

This letter is to certify that all concrete products manufactured by Southern Meter Box, Inc. are produced in Alexandria, Louisiana (USA). This includes meter boxes, concrete lids, vaults, valve box pads and all polymer products manufactured by Southern Meter Box. Also, cast iron lids are available in domestic only when specified. These items are manufactured for Southern Meter Box by Vestal Foundry in Sweetwater, Tennessee (USA), and can be identified by the company's logo on the underside of the lid.

I want to reiterate that all our concrete products and, when specified, cast iron products are 100% American made which puts us in compliance with the Buy American or American Recovery and Reinvestment Act (ARRA) signed in February of 2009. If you have any further questions or need any other materials please don't hesitate to ask. You can contact us at (800)239-6122.

Thank you very much for your business, and we look forward to continuing to serve you in the future.

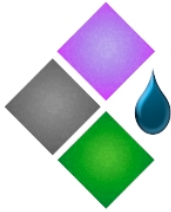

Sincerely,

James W. Curcio, Jr.
Vice President
